**your bills, sorted.**

Sample report based on a real customer's bills, personal details redacted. Savings marked as estimates depend on your usage. Not financial advice. Agent Bill is not affiliated with any provider named.

SWITCH 1 OF 3 · ELECTRICITY · SYDNEY HOME

# Electricity: about $1,040 a year less

~ Estimate

BEFORE

**~$4,710/yr**

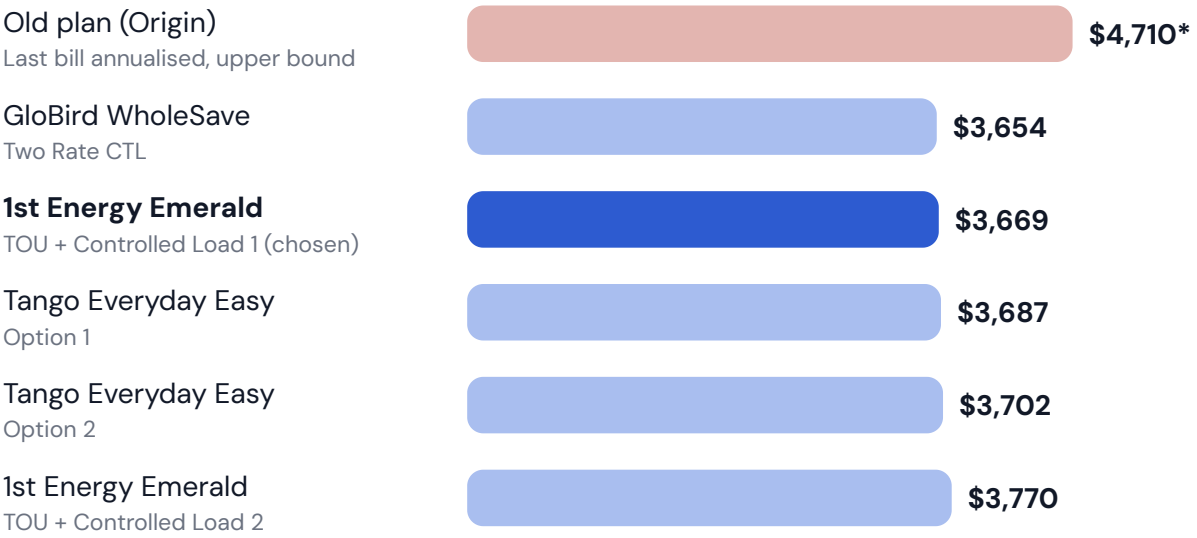

Origin. Last bill $1,187.11 for 92 days, annualised. Includes winter peak, so an upper bound.

AFTER

**~$3,669/yr**

1st Energy Emerald, Time of Use + Controlled Load 1. Modelled on your real usage.

## 577 plans from 19 retailers. Here's the top of the list.

Modelled yearly cost, usage scenario A, GST inclusive. Plans with demand charges excluded. *Upper bound from one 92-day bill.

### Why this plan

Within $15 a year of the cheapest plan, and it suits how this home uses power: aircon overnight and an electric car (2025 model) charging at home. We ranked every plan against your own meter-interval data, split into general, peak, solar-sharer window and controlled load.

Scenario B (car charged after 9pm): GloBird ~$3,510, OVO "The EV Plan" ~$3,639, Origin "Night Shift" ~$3,642.

### Good to know

- **This is an estimate, not a bill.** Real bills depend on the season and your usage.
- We'll check your first real bills against the model.
- No demand-charge plans, so no nasty peak penalties.

Sample report based on a real customer's bills, personal details redacted. Savings marked as estimates depend on your usage. Not financial advice. Agent Bill is not affiliated with any provider named.

SWITCH 2 OF 3 · INTERNET · NBN 1000

# Internet: $222 less in year one

✓ Verified price

BEFORE

**$109/mth**

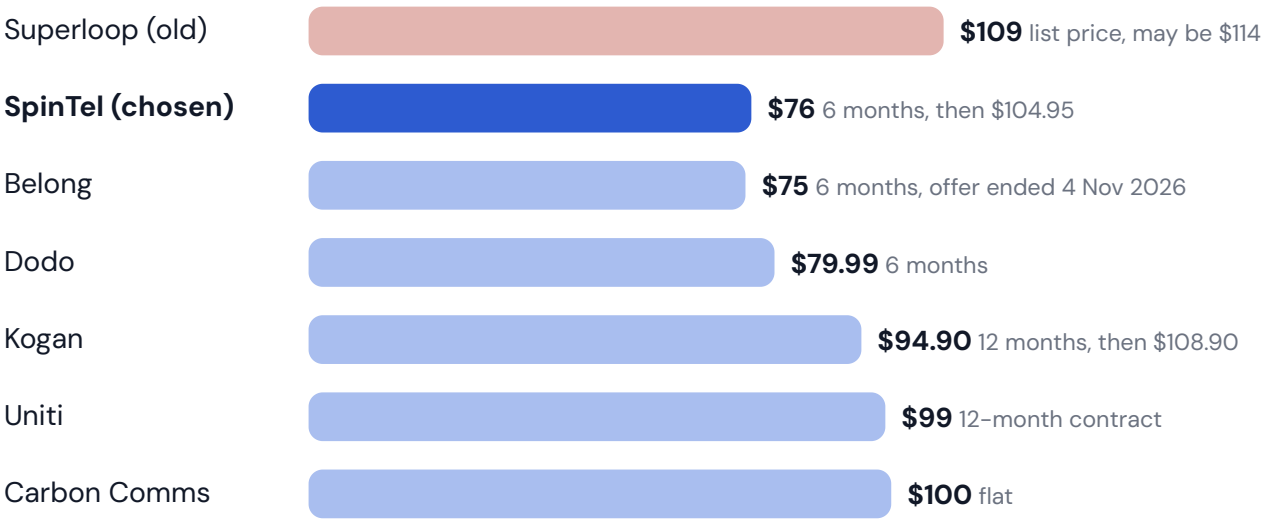

Superloop list price, $1,308 a year. Superloop's notice says it may go to $114.

AFTER, FROM 1 DEC 2026

**$76/mth**

SpinTel NBN 1000 for 6 months, then $104.95. Year one: $1,085.70.

## 7 providers compared

Monthly price, NBN 1000. TPG also offers a price-beat guarantee (not charted).

## Why SpinTel

Lowest year-one cost among the plans with full pricing, and no lock-in. Year one saves **$222**, or **$282** if Superloop really goes to $114.

## Exit fees and catches

- Superloop: no exit fee found. Cancelled, ends 1 Dec 2026.
- **Heads up:** after the intro ends (about 1 Jun 2027) the saving drops to about $4 a month. Reminder set for 20 May 2027 to switch again.
- The current mesh router only has gigabit ports, so a faster 2 Gbps plan would also need a new router.

Sample report based on a real customer's bills, personal details redacted. Savings marked as estimates depend on your usage. Not financial advice. Agent Bill is not affiliated with any provider named.

SWITCH 3 OF 3 · SUBSCRIPTIONS

# YouTube Premium: $96 a year less

✓ Verified price

BEFORE

**$33.99/mth**

Two-person plan billed through Apple. $407.88 a year.

→

AFTER, FROM 24 NOV 2026

**$25.99/mth**

Same plan, paid direct on youtube.com. $311.88 a year.

## Why this works

Some apps charge more when you pay through an app store. Same plan, same features, just a cheaper way to pay. We spotted it by matching the Apple receipts against YouTube's own price.

## Every saving, side by side

| ITEM | BEFORE (YR) | AFTER (YR ONE) | SAVING | CONFIDENCE |
|---|---|---|---|---|
| Electricity | ~$4,710 | ~$3,669 | **~$1,040** | ~ Estimate |
| Internet | $1,308 | $1,085.70 | **$222** | ✓ Verified price |
| YouTube Premium | $407.88 | $311.88 | **$96** | ✓ Verified price |
| **Total** | | | **~$1,360** | |

## What we didn't do (yet)

**Retention offers were not tested with any provider.** Calling up and asking "can you do better?" sometimes works. That's exactly the kind of thing Bill Watch handles for you.

Sample report based on a real customer's bills, personal details redacted. Savings marked as estimates depend on your usage. Not financial advice. Agent Bill is not affiliated with any provider named.
